

[raspberrypi.org](https://www.raspberrypi.org)

After Raspbian Installation

```
$sudo apt install fonts-unfonts-core
```

```
*err* temporary failure resolving 'raspbian.raspberrypi.org '
```

```
*Connecting WiFi*
```

```
wifi : country-US united states
```

```
Retry(Success)
```

```
$sudo apt install fonts-unfonts-core
```

```
$sudo apt install ibus-hangul(Success)
```

```
$sudo apt-get —yes install fonts-nanum fonts-symbola
```

reboot

Get online with SIMP Team-MagicMirror Project

Refer to <https://goo.gl/c5jRbD>

On Terminal

```
$bash -c "$(curl -sL  
https://raw.githubusercontent.com/MichMich/MagicMirror/master/in  
stallers/raspberry.sh)"
```

err

Point1: **Wi-Fi connecting**

Point2: install node.js and version of node.js

```
$cd ~/MagicMirror/
```

```
$npm start
```

err SyntaxError: Block-scoped declarations (let, const, function, class) not yet supported outside strict mode

[StackOverflow] nodejs 5 doesn't support let outside strict mode.
